

X-MOD

X-MOD is a solution with a technical module and a modular table. Thanks to its interconnection, you can easily assemble a table in several ways. For multiple uses, you can integrate a motorised screen of 19 inches and connection panels.

This solution has been designed on casters for ease of manipulation and to make each module independent.

SPECIFICATIONS

MATERIAL

Carpentry structure
On retractable casters

MODULE SUITABLE FOR

2 people

TECHNICAL MODULE

Laminate finish
Location for motorised screen
Rear cover in painted aluminium
Balancing system in fixed position

TABLE TOP

Medium density fiberboard
Wood laminate finish

BASES

In painted steel with adjusting screws

EDGES

Knife edges

WEIGHT

91 kg

INCLUDED

- 2 connection panels included : PC, USB, RJ and HDMI
- Side panels to connect the modules

Tech : Arthur Holm DynamicX2 AH19DX216GA
LifeSize Icon 700
